

Application No. 10/563,687
Amendment dated August 1, 2008
Reply to Office Action of May 1, 2008

Docket No. NY-GRYN 229-US

AMENDMENTS TO THE ABSTRACT

Please substitute the following paragraph for the abstract now appearing in the currently filed specification:

A method of diagnosing intolerance by a subject to a specified substance. A leucocyte sample prepared from whole blood drawn from the subject with an extract of the substance is incubated. Then, detecting whether or not polymorphonuclear neutrophils (PMNs) in the sample have become activated by determining whether or not PMNs in the sample have become adhesive.
